

Algebra II Summer Assignment Test concepts to know

1. Intercepts
2. Domain and Range
3. Parallel and Perpendicular Lines
4. Factoring
5. Simplifying Polynomials
6. Exponents
7. Radicals
8. Solving multi-step equations
9. Solving Absolute Value Equations
10. Graphing Linear Equations
11. Coming up with equations of a line through points
12. System of Equations (Substitution and Elimination)
13. Solving Quadratics (Quadratic Formula/Factoring)
14. Dividing and Multiplying Rational Functions (#43 and #44 on summer assignment)
