

Hello all,

As you probably already have been informed, the district is moving toward distance learning after what would have been spring break. This will start on April 20th and run through the end of the school year. The assignments that are assigned would be counted for a grade so that we have some type of scores for the 4th quarter, and to give students some direction in their studies. Having said that, typically in a semester, we do a 40-40-20 format, but I like to inform you that the work assigned will only be 25% value and not the would have been 40%. As of right now, I don't have any information regarding a final.

I will summarize important points below. If you have any questions, please feel free to ask.

- If you don't have access to the internet, please let me know.
- I will have a tentative weekly lesson plan, and the assignment will be uploaded on my website.
- I will try to incorporate zoom sessions, hopefully one as early as next week.
- Assignments will encompass HW, CW, and QZ. I am not sure how I can do a test just yet, so to be determined.
- I don't have a platform to submit assignments online yet, so for now we may have to email pics of completed assignments.
- I am sure so many other things will come up and will deal with them one at a time.
- Please sign up to Remind. Code provided on webpage as well:
- Remind Class Code 1st period: @kc67kh

Remind Class Code 5th Period: @9f62dh

- **IMPORTANT:** Please Sign up to Khan Academy. I have posted the class code online.
Khan Academy Class Code 1st Period: Y9JJ7T8X

Khan Academy Class Code 5th Period: 9BBUQTTH

I will post a preliminary assignment.

Please keep in mind that this assignment will not be given a grade. It serves as practice needed to get ready for the AP Exam, it will give you an idea of what may occur after the 20th. It will also allow me to work with the platform.

- I would like to hold a zoom session sometime. Will post information on the website or send a remind once I have a bit more time to plan it.
