

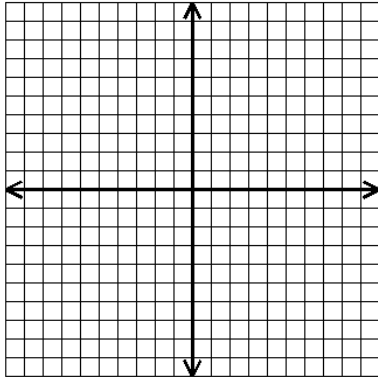

Graphing Using Intercepts

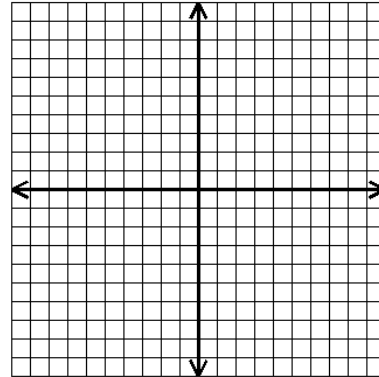

Worksheet

Graph each equation using x and y intercepts.

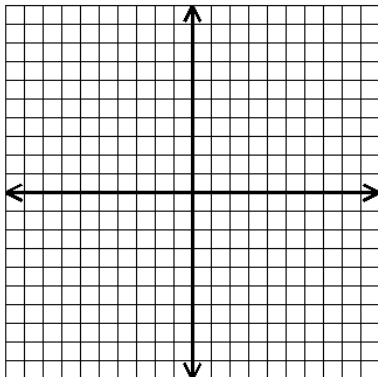

1. $x + y = 5$

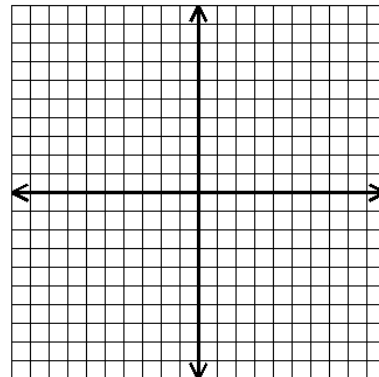

2. $x + 2y = 8$

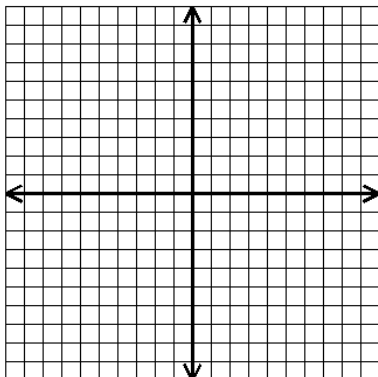

3. $2x - y = 6$

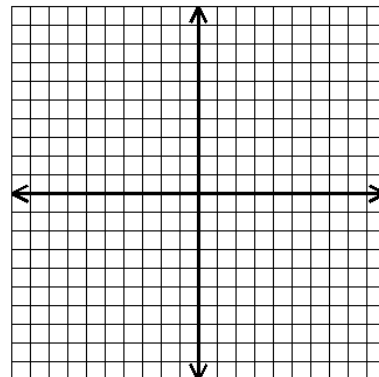

4. $2x + 2y = -4$

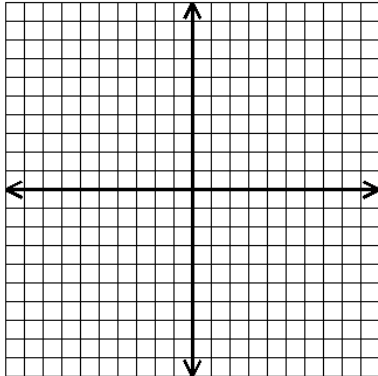

5. $3x + y = 12$

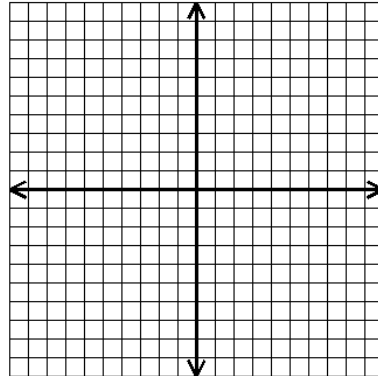

6. $2x + 4y = -4$

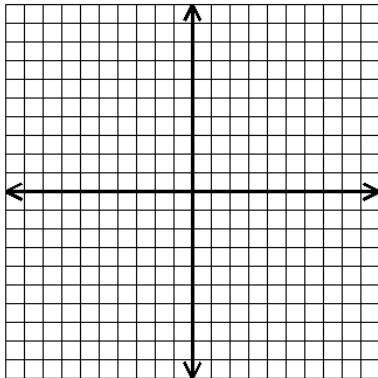

7. $3x - 5y = 15$

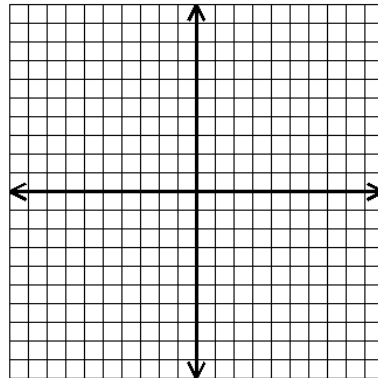

8. $4x - 3y = 12$

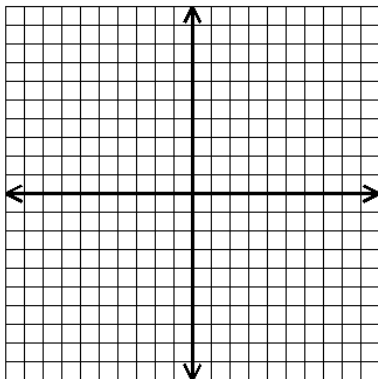

9. $x + 5y = 5$

10. $2x + 4y = -8$

11. $2x + 3y = 3$

12. $x - 2y = 1$
